## DETAILED ACTION

Applicants' arguments, filed 9/25/08, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

### *Species Election*

Because Applicants attempted to amend around N-acetylindole, a new species is now being searched, which specie is of the formula:

, where R<sub>3</sub>=ethyl.

Claims 1, 2, 3, 6, 7, 8 and 11 are now examined.

### *Claim Objections*

**Claim 1** objected to because of the following informalities: The amended proviso is unclear as to the requirements insofar as it appears there are multiple provisos given the confusing way the proviso is written (apparently missing comma which creates independent multiple phrases).

Examiner suggests the following language:

Art Unit: 1612

“...with the proviso that when Y is absent, X is absent, p is 0, R<sub>1</sub> is hydrogen, and Q is CR<sub>y</sub> then R<sub>6</sub> is not hydrogen...”

Further, it is noted that the amendment appears to use “-”, rather than “=” for defining p.

**Claim 11** is objected to because of the following informalities: It is unclear what purpose the phrase “selected from Tables 1 through 14” serves, given the structure of the compounds are provided. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 1, 2, 3, 6, 7 and 8** are rejected under 35 U.S.C. 102(b) as being anticipated by Giudicelli (FR 74 26208 A1).

Discloses

, in which R<sub>3</sub> of claim 8 translates

to “R<sub>3</sub> representing a radical alkyl of low molecular mass, in particular, the radical ethyl” (claim 8)<sup>1</sup>.

<sup>1</sup> As translated by babelfish.yahoo.com, a copy of which is provided and relied upon until an "official" translation can be obtained.

***Status of the Claims***

The compounds of Claim 11 appear to be free of the prior art.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
